What Do Our Customers Say About ISO50001?

“We don’t trumpet our standards – they’re a business tool, not a marketing tool, there to drive performance. They help achieve consistency in our production processes, and drive the right behaviours.”

Denise Graham, Technical Manager, Tata Global Beverages

A series of projects, including fitting intelligence software to compressors to help them work more efficiently, saw the company make overall savings of £56,000 in the first year alone, and an additional £28,000 in the second year. “We may well have made some of those savings without certification, but it focused our minds and helped us to achieve the savings more speedily,” says Denise Graham.

What Do Our Customers Say About ISO50001?

Viridor

“Achieving ISO 50001 not only helps shape our own desire to be a socially responsible business, but demonstrates to our customers and stakeholders that Viridor is committed to transforming itself into a company with reduced costs and less reliance on fossil fuels, ready for the future”.

Andrew Whitehorn, Head of Sustainable Business, Viridor

Morgan Lovell

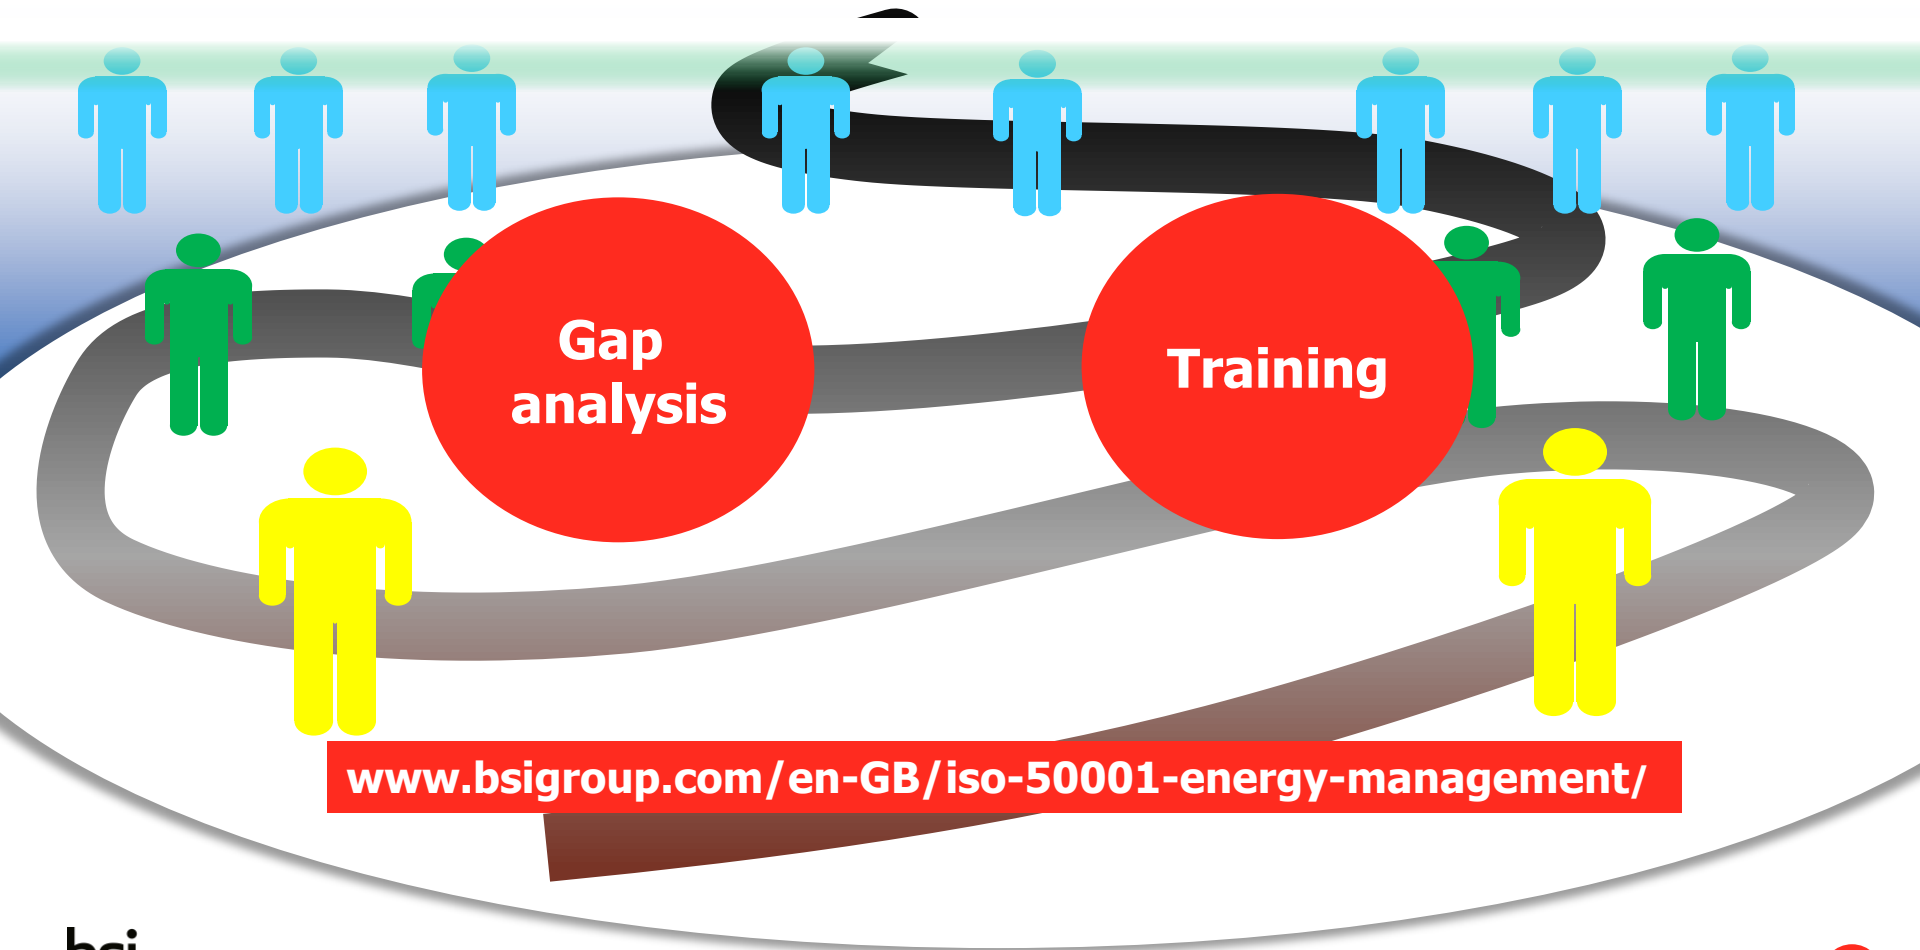

“Morgan Lovell has always been an environmentally conscious organization. However the ISO 50001 energy management standard provides a credible benchmark against which we can monitor and continually improve our performance going forwards.”

Sophie Hutchinson, Sustainability Manager, Morgan Lovell
